# EXTERIOR DESIGN

---

The All New Civic Hatch has been designed with striking Euro-inspired coupe-like styling incorporating unique cues to give it an even sportier and energetic attitude.

Styling changes have created an aesthetic elongated bonnet, expansive glass area and distinctive grille mesh for a premium profile.

## **Civic Hatch MUGEN exclusive:**

The MUGEN equipped special edition further amplifies the sporty presence and flowing body lines to give a wider and strong impression. Designed with a sense of speed the front, side and rear underspoilers are body coloured to visually extend the cars muscular stance.

At the front a low and wide fin type design is utilised which flows into the sides to unify the profile. This concept is continued on both sides then to the rear, framing the bumpers lower air diffuser. Atop the hatch is a tasteful lip spoiler that finishes the rear with a flick of confidence.

# THE DETAIL OF DESIGN

Attention to detail is paramount to success in the world of motorsport. Few have come close to the results achieved by MUGEN at the highest level. Their culture of focus and passion for winning are honoured with this special edition Civic.

To emphasise these principles the following are standard on MUGEN equipped variants:

### AERODYNAMICS

- ◆ MUGEN Front Underspoiler
- ◆ MUGEN Side Underspoilers
- ◆ MUGEN Rear Underspoiler
- ◆ MUGEN Tailgate Spoiler

### EQUIPMENT

- ◆ MUGEN Front Grille Trim
- ◆ MUGEN Interior Decal
- ◆ MUGEN Door Handle Protectors
- ◆ MUGEN Metal Emblem
- ◆ MUGEN Sill Garnishes

BODY COLOUR – FRONT, SIDE & REAR UNDERSPOILERS

CARBON EFFECT – GRILLE TRIM

INTERIOR DECAL

CARBON EFFECT – DOOR SILL GARNISHS

CARBON EFFECT – DOOR HANDLE PROTECTORS

# FURTHER ENHANCEMENT: MUGEN ACCESSORIES

---

Further enhancements in performance and style are available in the form of Forged Wheels and a Stainless Steel Sports Exhaust system.

## **MUGEN FS10 Forged Wheels:**

The FS10 wheels are an all new design with a machined face surface and black inserts. Thanks to their forged construction, a drop of 4kg of un-sprung mass per corner is achieved improving driving dynamics in all environments. Sizing is 18 x 8.5J with an offset of 50, securing each wheel are MUGEN black taper type wheel nuts, one with a locking design.

## **MUGEN Stainless Sports Exhaust System:**

The sports exhaust system has been designed to produce a deep and mature tone which compliments the VTEC TURBO powertrain perfectly. The stainless steel construction helps realise high efficiency and performance. The system consists of a centre resonator and dual mufflers, with dedicated garnish trims. Each muffler adopts an oval finisher, amplifying the sporty nature of the Civic and in homage to the famous MUGEN tuner systems of the past.

STAINLESS STEEL – SPORTS EXHAUST [ACCESORY]

FORGED ALLUMINUM – FS10 WHEELS [ACCESORY]
