

Honda Super-ONE

HONDA
The Power of Dreams

How we move you.
CREATE ► TRANSCEND, AUGMENT

DESIGNED FOR THE CITY. TUNED FOR THE JOY

A bold new urban EV with
unmistakable Japanese
design and character.

Compact on the outside.
Surprisingly spacious inside.
Packed with personality.

DISTINCTLY DIFFERENT

Signature round LED headlights, sleek LED tail lights and bold proportions give Super-ONE a playful, confident look.

BOOST MODE

Power increases from 47kW to 70kW, with simulated gear shifts, enhanced sounds and dynamic lighting for a more engaging drive.

EASY ELECTRIC DRIVING

CITY Mode supports single-pedal driving, while paddle deceleration control helps the driver fine-tune regenerative braking.

SURPRISINGLY SPACIOUS

A clean, modern cabin comfortably seats four adults, with Magic Seats® to flex the space for everyday life.

MAGIC SEATS

Maximum Flexibility

With Honda's innovative Magic Seats, the Honda Super-ONE transforms to suit your lifestyle in seconds.

Whether you're carrying a bicycle, transporting plants from the garden centre, loading sports equipment, or packing for a weekend away, Magic Seats adapt to suit your lifestyle with ease.

UTILITY MODE: Fold the rear seats flat to create a spacious cargo area for larger items.

LONG MODE: Fold both front and rear seats to accommodate longer items such as boards or furniture.

TALL MODE: Flip up the rear seat bases to carry taller items with ease.

SURPRISINGLY SPACIOUS

- Four-seat configuration
- Clever interior packaging
- Honda Magic Seats®
- Flexible cargo space
- Heated front seats

DIGITAL COCKPIT

- Wireless Apple CarPlay®
- Wireless Android Auto
- Digital Driver Display
- BOSE Premium 8 speaker Audio system with Sub-woofer

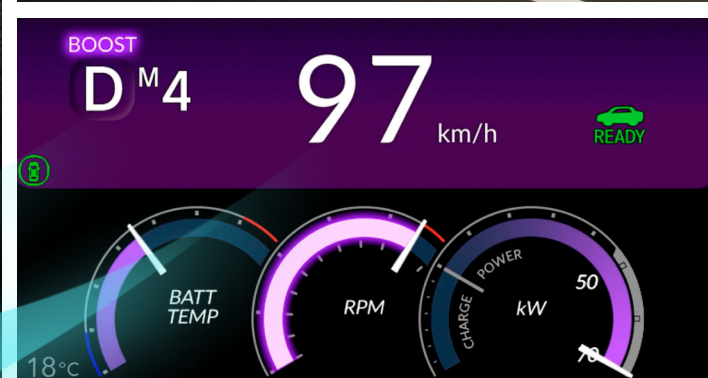

BOOST Mode

Activated at the touch of a dedicated steering wheel button.

⚡ **Up to 49% More Power** 47kW to 70kW at the push of a button.

🎮 **Simulated Gear Shifts** A more interactive and engaging drive.

💡 **Dynamic Lighting & Sound** An immersive experience unlike a conventional EV.

SAFETY

Honda SENSING

Drive with added confidence knowing Honda SENSING is watching out for you.

The suite of advanced safety technologies includes:

- Collision Mitigation Braking System (CMBS™)
- Adaptive Cruise Control (ACC)
- Lane Keeping Assist System (LKAS)
- Road Departure Mitigation System
- Auto High Beam
- Lead Car Departure Notification

Designed to help reduce driver workload and enhance safety on every journey.

HONDA CONNECT GEN2

Stay connected to your vehicle wherever you are.

With the Honda Connect Gen2 app, you can:

- Use Digital Key functionality
- Locate your vehicle
- Control charging remotely
- Schedule charging
- Receive vehicle status notifications
- Get security alerts
- Access Roadside Assistance
- Google Built in
- Automatic Collision Detection

Includes 3 years of complimentary Honda CONNECT subscription.

WARRANTY INFORMATION

Peace of mind comes standard with

- New Vehicle Warranty - Up to 5-year unlimited kilometre warranty* (whichever comes first)
- 5 Years Honda Premium Roadside Assistance (while under Warranty)
- High Voltage Components & EV Battery - 8-Year or 160,000 kilometres (whichever comes first)

*3 year Manufacturer + 2 year Distributor

PADDLE DECELERATION Control

Steering wheel-mounted paddle shifters let you adjust regenerative braking levels, giving you greater control and a more engaging driving experience.

SINGLE PEDAL Driving

CITY Mode makes stop-start driving effortless by allowing you to accelerate and decelerate using just one pedal, helping reduce driver fatigue in urban traffic.

EASY Charging

Charging is simple thanks to the front-mounted charging port.

Drive up to approximately **253km*** in city driving, with DC fast charging capable of replenishing the battery from **15% to 80% in approximately 30 minutes^.**

*NEDC

^Using a compatible 50kW DC fast charger.

SUSTAINABILITY Designed with a Second Life in Mind

The Honda Super-ONE has been thoughtfully engineered using recycled and plant-based materials without compromising quality or durability. Discarded Honda bumpers are transformed into selected exterior components, while PET bottles become carpet fibres and factory work uniforms are repurposed as cabin insulation. Plant-based bio-resin is used for selected interior trim. Every material is engineered to meet Honda's rigorous quality standards, demonstrating that sustainability and craftsmanship can go hand in hand.
