The Power of Dreams

# Premium sophistication

---

Honda has always been about powering dreams and pioneering advances in better engine design, electrification and hybrid technology.

Now Honda is about to redefine the joy of driving with the all new ZR-V e:HEV. A compact crossover SUV like no other.

This Honda ZR-V is a gamechanger that will cause people to rethink the way they drive. At the heart of this change is e:HEV hybrid technology which is unique to Honda and which draws inspiration from the ingenuity of Mr Soichiro Honda and our Formula One success.

With e:HEV you get the ease and convenience of hybrid with the trusted heritage, quality and safety of Honda. The ride is smooth and comfortable while the interior boasts beautiful styling, leading edge connectivity and generosity of space for families, weekday practicalities and weekend fun.

In a different way, VTEC (Turbo only) delivers extraordinary advances in efficiency, economy, reduced fuel consumption and exceptional vehicle performance.

All of which means the new Honda ZR-V is an SUV without compromise. It is also one that offers an immediate sense of quality, quiet sophistication, versatility and the promise of a premium ownership experience.
