Introducing the Honda ZR-V Range

Bold styling, sporty performance and premium comfort come together in the Honda ZR-V range.

Positioned as Honda's medium SUV, the Honda ZR-V is designed for drivers who want the versatility of an SUV with the refinement and driving feel of a sporty hatchback.

From daily commuting to weekend road trips, the Honda ZR-V delivers confident performance, advanced safety and smart technology across every model.

Whether you choose the Hybrid L or Hybrid LX, every Honda ZR-V is crafted to feel smooth, responsive and rewarding behind the wheel.

WHERE COMFORT MEETS INNOVATION.

The Honda ZR-V Hybrid range blends premium comfort with advanced hybrid technology to create a refined medium SUV experience.

Inside, the cabin is clean, modern and driver-focused, with soft-touch finishes, and a spacious layout designed around everyday comfort.

Advanced connectivity and intuitive controls place everything within easy reach, while the quiet performance of Honda's hybrid system delivers smooth, responsive driving in all conditions.

Features including heated seats, wireless smartphone connectivity and a digital driver display create a premium driving environment that feels effortless on every journey.

SPORTY SOPHISTICATION

The Honda ZR-V range combines sleek SUV styling with sporty, coupe-inspired proportions for a confident road presence.

Bold exterior lines, premium alloy wheels and refined detailing give the Honda ZR-V a modern and athletic appearance from every angle.

Designed to feel equally at home in the city or on the open road, the Honda ZR-V delivers the versatility of a medium SUV with the sophistication of a premium crossover.

HYBRID TECHNOLOGY

e:HEV HYBRID TECHNOLOGY

Honda's advanced e:HEV hybrid system combines a responsive 2.0L petrol engine with powerful electric motor technology for smooth and effortless performance.

The result is strong acceleration, impressive fuel efficiency and a refined electric driving feel, all while delivering the practicality expected from a modern medium SUV. With intelligent hybrid technology working seamlessly in the background, the Honda ZR-V hybrid range delivers confident performance for everyday driving.

Your Honda ZR-V in your pocket.

Honda Connect Gen 2 delivers one of the most comprehensive connected suites on the road. You can now control your car from your phone, featuring remote locking, location tracking and remote engine immobilisation functions.

¹ You must keep your physical key and mobile phone in the vehicle while driving. The engine will not start if your mobile device is out of battery, has no internet connection or is not inside the vehicle. Some Honda Connect app features are only available if your vehicle is linked to your Honda Connect account and connected services is activated. Remote vehicle features vary by model and not all vehicles will have all features.

² Automatic collision detection is unavailable where there is no telecommunications network coverage, and may be unavailable during system maintenance or unplanned interruptions. This feature should not be relied on in the event of an emergency.

Remote Engine Immobiliser

Gives you the ability to remotely immobilise your car to provide added peace of mind.

Remote Climate Control

Prepare your Honda ZR-V in advance with remote climate control. Remotely set your ambient temperature on your Honda Connect smartphone app to keep you and your passengers comfortable as soon as you step inside.

Remote Lights On/Off

Never lose your car in a parking lot. With Honda Connect, you can remotely interact with your vehicle and locate your car by flashing your headlights and taillights until you find your Honda.

Remote Lock/Unlock¹

Worried you forgot to lock up? Does a passenger need access, but they don't have a key? With Honda Connect, you can remotely lock or unlock your Honda with a simple tap on your smartphone.

Automatic Collision Detection²

In the event of airbag deployment, a notification will get sent promptly to the device logged into Honda Connect. The app will also alert a Honda Connect Customer Care agent, who will call the Honda Connect user and dispatch emergency services to the location if there's no response.

Digital Key

Honda Digital Key lets you unlock, lock, and start your vehicle using your smartphone for added convenience. It gives you easy access to your car without needing to carry a physical key.

Honda ZR-V

BETTER VISIBILITY.

Drive with greater confidence and clarity in the Honda ZR-V Hybrid range.

A wide windscreen, slim front pillars and elevated SUV driving position help create excellent visibility and a more open cabin feel.

Parking and manoeuvring are made easier with the multi-view reverse camera system and front and rear parking sensors, giving you added confidence in tight spaces and busy urban environments.

The available 360° multi-view camera system on the Hybrid LX provides an enhanced view around the vehicle, helping make everyday driving simpler and more convenient.

Honda
SENSING

Safety that sees more.

Honda SENSING³ delivers a suite of intelligent driver assist features that work quietly and intuitively to help keep you safe and aware, without disrupting your driving experience. From tight parking to sudden traffic changes and busy freeways, it offers confidence boosting support without interrupting your drive.

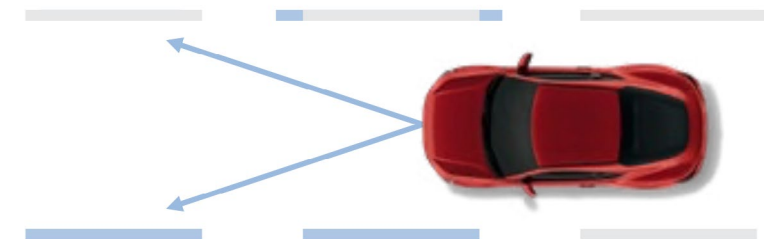

Traffic Sign Recognition System

Reminds you of certain road sign information such as the current speed limit your vehicle has just passed through, showing it on the gauge.

Traffic Jam Assist

Works in conjunction with the Lane Keep Assist System (LKAS) to apply steering torque, keeping your vehicle centred in lane during heavy traffic.

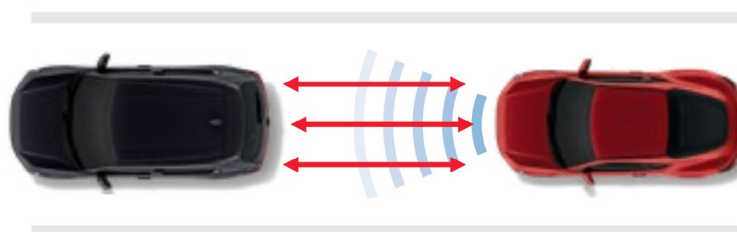

Lane Keep Assist System

Provides steering input to help keep the vehicle in the middle of a detected lane and provides audible and visual alerts if the vehicle is detected drifting out of its lane.

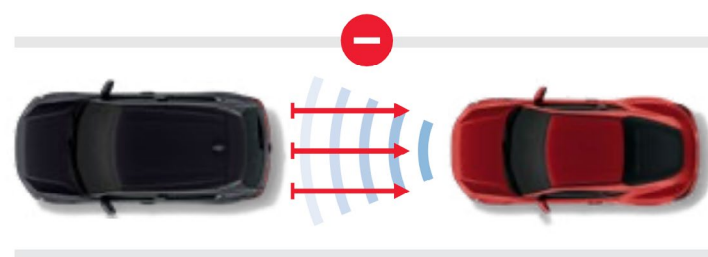

³ Honda SENSING is driver-assist technology. Drivers must continue to drive safe and monitor the road and not rely on technology. Accuracy and operation of Honda SENSING may vary based on weather, speed, traffic, road conditions, markings and other factors. Refer to owner's manual.

HondaZR-V

Adaptive Cruise Control with Low Speed Follow

Helps maintain a constant vehicle speed and a set following interval behind a vehicle detected ahead of yours and, if the detected vehicle comes to a stop, can decelerate and stop your vehicle.

Collision Mitigation Braking System

CMBS is designed to alert you when a potential front collision is determined, as well as to reduce your vehicle speed to help minimise collision severity when a collision is deemed unavoidable.

Road Departure Mitigation System

Alerts and helps to assist you when the system detects a possibility of your vehicle unintentionally crossing over detected lane markings, or approaching the outer edge of the road surface or a detected oncoming vehicle.

Honda ZR-V

Honda makes finance easy.

Whether you prefer to work with us in-store, over the phone, or online, Honda Financial Services⁴ is your comprehensive one-stop solution for personal and company leasing or financing — proudly supported by our long-term partners, UDC and MTF Finance.

HONDA
Financial Services

⁴ With Honda Financial Services, owning your new ZR-V is simple and flexible. A range of tailored finance and lease options are available through your local Honda dealership, with our team ready to guide you through the process and find a solution that suits your needs. Whether you prefer structured repayments or greater flexibility, Honda Financial Services makes it easier to get behind the wheel with confidence. Terms and conditions apply.
