A KIWI FAVOURITE RE-IMAGINED

Since first cruising onto the world stage in 1998, the Honda HR-V has proved immensely popular for its practicality, visual appeal and engaging driving experience. With the all-new HR-V, none of that has changed. But what we have done differently is the engine. The 2024 HR-V is powered by Honda's latest hybrid technology, e:HEV, a unique two-motor hybrid system that combines high environmental performance and driving pleasure. Less cost, more joy, lower carbon footprint.

Best of all, the new HR-V self-charges as you go – no plug-ins, no range anxiety, and no road user charges.* And for your peace of mind, the e:HEV battery comes with an 8-year warranty.

A JOY TO DRIVE

The two-motor e:HEV system delivers quick acceleration and engaging driving dynamics. With three drive modes – ECON, for smooth driving and fuel efficiency; NORMAL for daily driving; and SPORT, for a more spirited, engaging experience – there's something to suit every driving style and preference.

ROOM TO RELAX

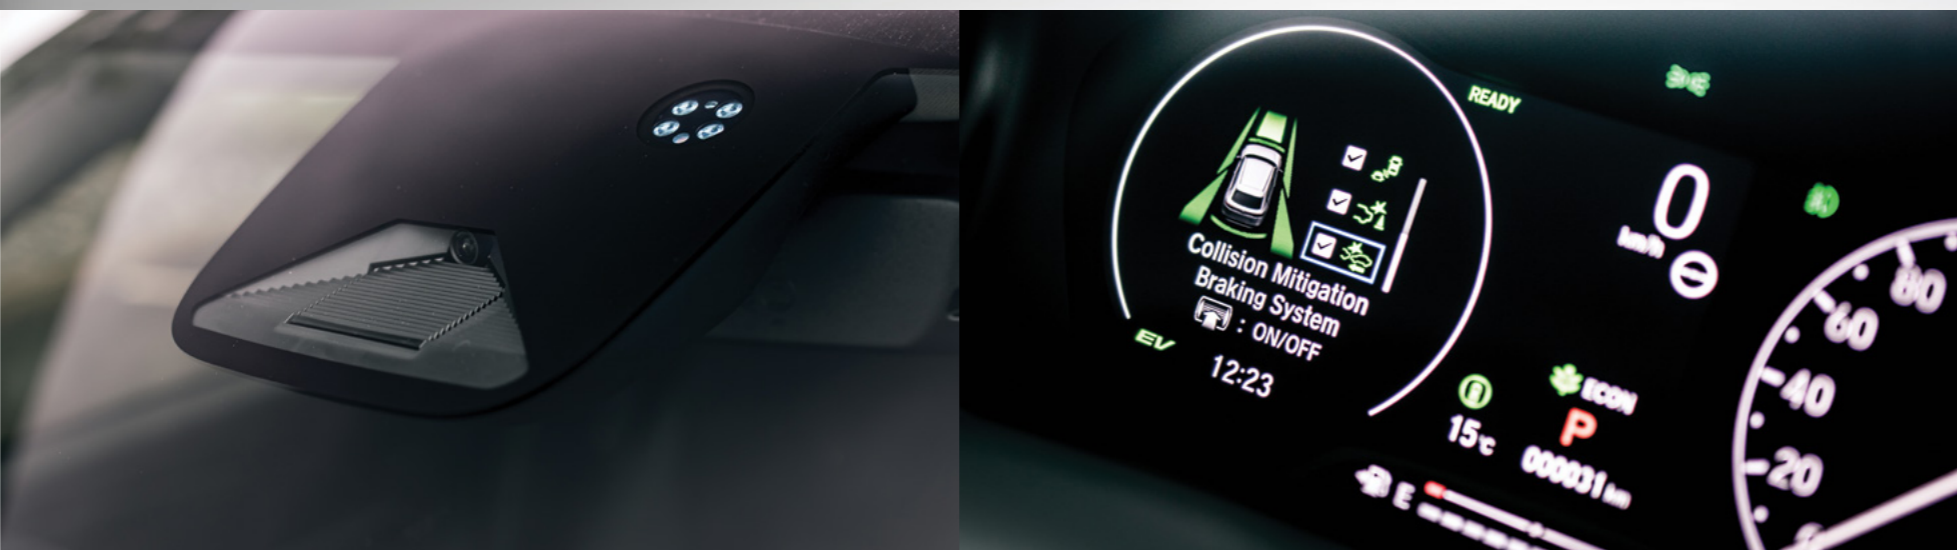

On the inside, the HR-V retains all the features Kiwis know and love. Like Magic Seats that configure 18 different ways to fit almost anything in the cabin. Strollers, multiple suitcases, golf clubs? Not a problem.

Cutting-edge tech ensures both style and comfort, with features like heated front seats, leather-appointed heated steering wheel and dual zone climate control keeping everyone happy. The cockpit is intuitively designed to ensure the driving experience is effortless and relaxed. An LCD instrument cluster with 7" multifunction colour display lets you keep tabs on key data with minimal distraction, and the multifunction steering wheel controls – including deceleration paddle selector – put everything you need at your fingertips.

Staying connected on the road is easy – with Android Auto and Wireless Apple CarPlay, you can seamlessly integrate your device with the HR-V's 9" touchscreen display.

BETTER BY DESIGN

The new HR-V's clean, sleek lines make for superb aerodynamics. And clever features like subtly integrated rear door handles and a grille the same colour as the bodywork give this five-door SUV the look of a streamlined 3-door coupe. With a power tailgate, stylish 18" alloys, LED headlights with Adaptive Driving Beam and more, the all-new HR-V is a masterclass in form and function.

NEVER BEEN SAFER

Honda's advanced sensing technology offers a range of features designed to keep you and your loved ones safe, including:

- » Adaptive Cruise Control (ACC) with Low Speed Follow (LSF)
- » Lane Keep Assist System (LKAS)
- » Road Departure Mitigation System (RDM)
- » Collision Mitigation Braking System (CMBS)
- » Forward Collision Warning (FCW)
- » Lane Departure Warning (LDW)
- » Blind Spot Information System (BSI)
- » Rear Cross Traffic Alert (RCTA)
- » Traffic Jam Assist (TJA)
- » Traffic Sign Recognition System
- » Parking Sensors
- » 3-angle Reversing Camera with Dynamic Parking Aid
