

**HONDA**

# 10<sup>th</sup> GENERATION CIVIC

The Civic built Honda's global reputation and redefined the standard when first launched in 1972. Totally re-engineered, the 10th generation Civic is once again set to challenge convention.

With a bold coupe like silhouette, two engine sizes including a new responsive, fuel efficient turbo, luxury interior, class leading space, advanced safety and driver's technology featuring Apple CarPlay™ and Android Auto™, the new Civic is a standout, for all the right reasons.

KEY ADDITIONAL FEATURES OVER CIVIC SX

## POWERTRAIN

- 1.5 litre DOHC VTEC Turbo engine
- EarthDreams Direct Injection Technology
- 127kW @ 5500 rpm
- 220Nm @ 1700-5500 rpm
- 7 Speed Paddle Shifters
- Dual Exhaust System

## EXTERIOR

- LED Intelligent Auto Headlights
- LED Fog Lights
- Intelligent Auto Rain Sensing Wipers
- Power Folding Mirrors
- Dark Privacy Glass

## INTERIOR

- Sports Leather Interior Trim with Perforation
- Heated Front Seats
- Power 8 Way Electric Driver's Seat
- Leather Gear Shifter
- Dual-zone Automatic Climate Control

## INFOTAINMENT

- Premium Audio 452W System
- Digital radio (DAB+) <sup>3</sup>

## SPORT SENSING EXCLUSIVE FEATURES

### EXTERIOR

- 17" Alloy Wheels
- Electric Sunroof
- Sport Badging

### INTERIOR

- Silver stitched Seats & Interior
- Auto-dimming Rear View Mirror
- Auto up/down Power Windows (All)
- Remote up/down Windows & Sunroof

### INFOTAINMENT

- Inbuilt Garmin Navigation App
- 12 Speaker System with Subwoofer
- SUNA Live Traffic Updates <sup>4</sup>

### HONDA SENSING

- Adaptive Cruise Control (ACC)
- Low Speed Follow (LSF)
- Lane Keep Assist System (LKAS)
- Collision Mitigation Braking System (CMBS)
- Forward Collision Warning (FCW - Integrated with CMBS)
- Road Departure Mitigation (RDM)
- Lane Departure Warning (LDW - Integrated with RDM)

### SPORT HANDLING

- Upgraded Suspension with Hydraulic Bushings

See specifications for full list of features.

## ADVANCED SAFETY

The Civic Sport Sensing employs some of the most advanced safety technologies available today. Introducing Honda Sensing, an interconnected suite of intelligent driver assist technologies designed to help improve your situational awareness, and, in some cases, intervene to help avoid a collision or lessen its severity.

## HONDA SENSING

### LANE KEEP ASSIST

Honda's Lane Keep Assist System reduces the strain of extended driving by helping you maintain your lane position. If the vehicle begins to leave the centre of a detected lane without signalling, the steering automatically adjusts to keep you centred.

### COLLISION MITIGATION BRAKING SYSTEM

The Civic Sport Sensing incorporates a millimetre wave radar sensor, that helps mitigate the severity of an unavoidable accident by automatically applying strong brake pressure when needed.

### LANE DEPARTURE WARNING

The windshield mounted camera identifies common safety markers, like lane dividers and catseye markers, and will issue an audio alert if you are about to leave your lane without signalling.

### FORWARD COLLISION WARNING

The Honda Forward Collision Warning System uses a small camera, mounted at the top of the windshield, to determine if you are at risk of a collision with another vehicle. The system issues audio and visual signals, and will automatically apply brake pressure should you fail to react.

### ROAD DEPARTURE MITIGATION

The Road Departure system works in conjunction with the Lane Departure Warning sensors to gently correct your course, via steering and braking adjustments, in the event of the vehicle leaving a detected lane.

### ADAPTIVE CRUISE CONTROL WITH LOW SPEED FOLLOW

The Civic Sport Sensing's onboard radar & camera sensors enable the Adaptive Cruise Control to maintain a set following interval by automatically adjusting your cruise control speed up or down when traffic is detected.

Active Apple CarPlay™ connection shown.

## AUDIO & CONNECTIVITY

### ADVANCED DISPLAY AUDIO

The Civic offers the latest in smartphone connectivity, allowing you to seamlessly integrate either Apple or Android devices with the Advanced Display Audio Unit.

Apple CarPlay™ is a smarter, safer and more fun way to use your iPhone in the car. It offers easy navigation and extensive audio and communication capabilities, all while you keep your eyes safely on the road. Use Apple's highly intelligent Siri voice assistant to get directions, make calls, send and receive messages, and select your favourite music.

Android Auto™ allows you to quickly connect your compatible smartphone for navigation, communications, music and more. By extending the Android platform in a way that's purpose built for the car, Android Auto is designed as powerful voice actions, with safety in mind.

### VOICE COMMANDS

Connecting a device featuring voice commands will enable you to create a text message, find a location, even check the weather, at the touch of a steering wheel mounted button.

### GARMIN NAVIGATION APP

The Civic Sport Sensing comes standard with a built in Garmin Navigation App. Satellite Navigation from Garmin & SUNA live traffic updates mean you always know the best way to go, even if you do not have an active smartphone connection.

### MULTI ANGLE REVERSING CAMERA

Shift into reverse and the multi angle camera automatically displays one of three rear views on the Advanced Display Audio Unit. The Civic combines information received from parking sensors and steering, to perfectly project and display your path as dynamic guidelines overlaid on the reversing camera feed.

### LANEWATCH CAMERA

Honda's LaneWatch Camera is the next step in blind spot detection. When indicating left, or at the push of a button, a camera mounted under the passenger wing mirror shows a sweeping 80° view – making lane changes safer than ever.

### DRIVER INFORMATION INTERFACE

A quick glance behind the steering wheel shows what's playing, who's calling and almost everything else you need to know including outside temperature, average fuel consumption, trip metre and distance to empty.

Spare Wheel		Compact

## FUEL ECONOMY & EMISSIONS

Automatic CVT - (L/100km ADR)	6.4	6.1
Automatic CVT - CO <sub>2</sub> Emissions (g/km)	148	142

## EARTHDREAMS POWERTRAIN

Get a more responsive and dynamic drive from the moment you set off thanks to Honda's clever EarthDreams technology. Both engine and transmission packages are enhanced to deliver a unique mix of driving enjoyment with outstanding environmental performance.

## VTEC TURBO

Honda's VTEC Turbo is the turbo engine reimagined, achieving both excellent fuel economy and the fun of driving. Turbo engines were traditionally powerful - at the cost of fuel efficiency - but that has completely changed with the VTEC Turbo.

Integrated Security Alarm System	✓	✓
Immobiliser	✓	✓

## ELECTRONIC BRAKE HOLD

Never again will you spend your time stopped in traffic stepping on the brake pedal. Simply press the automatic Brake Hold button and the system will hold the Civic in position without you having to step on the brake. The clever system automatically releases the brake as you press the accelerator pedal so long as the driver's seatbelt is engaged.

## EMERGENCY STOP SIGNAL

The Emergency Stop Signal automatically activates the brake and hazard warning lights when it detects an emergency stop situation. The lights blink rapidly to warn following vehicles that the car is stopping abruptly, reducing the risk of a collision.
